PROFESSIONAL EXPERIENCE

A dedicated full-stack junior web developer who carries logical thinking to overcome challenges, write clean codes and build responsive apps. My background involves tremendous of decision making, team collaboration and planning works. I love programming in the way that it teaches me how to think and develop authentic life skills. It plays an art form where people provide creative solutions to current projects in their own ways. This is also how technology evolves.

Having recently completed the intensive 12 weeks of Makers Academy, I have grown from an interested amateur coder into a competent and confident junior developer.

I am currently looking to take on a career in the tech scene of London, where I can further expand my knowledge in Full-Stack and Back End development and Architecture design.

TECH SKILLS

- Ruby, Rspec, Sinatra, Capybara
- JavaScript, Jest, Node.js, Express, React

 - Commitments
-

PROJECT EXPERIENCE

Sportify

A Sports Scheduling Application

- Sportify is a multi-page web application designed for newcomers and veterans alike in the exercise scene. It contains functionality to help inspire a beginner to partake in their very first workout, as well as allowing those with hectic workout schedules the means to organise their fitness journeys.

Nachos Libro

A Clone of Facebook

- This application is created where users can interact with each other. This can be done by signing up, personalizing their profile page, creating posts, liking and commenting on other people's posts..

MakersBnB

A Clone of AirBnB

- A web app resembling AirBnB in order to consolidate our understanding of Ruby and introduce us to full stack development.
