EDUCATION

Makers Academy

Jan 2022-May 2022

Makers Academy is Europe's leading Web Development Bootcamp, consisting of 4 weeks of remote pre-course material followed by 12 weeks of on-site, intensive training - in order to retrain and pursue a career as a Full-Stack Software Developer.

University of Exeter

Sep 2012-Jun 2015

BA Business Economics (major in Econometrics)

PROJECT EXPERIENCE

Sportify

Sportify is a multi-page web application designed for newcomers and veterans alike in the exercise scene. It contains functionality to help inspire a beginner to partake in their very first workout, as well as allowing those with hectic workout schedules the means to organise their fitness journeys.

Nachos Libro

A clone of Facebook. This application is created where users can interact with each other. This can be done by signing up, personalizing their profile page, creating posts, liking and commenting on other people's posts.

MakersBnb

A web app resembling AirBnB in order to consolidate our understanding of Ruby and introduce us to full stack development.

TECH SKILLS

- Ruby, Rspec, Sinatra, Capybara
- JavaScript, Jest, Node.js, Express, React, Cypress, Nodemon
- HTML, CSS, Handlebars
- SQL, Postgres, TablePlus, MongoDB, MongoDB Compass, Mongoose
